The general tendency of prices was upward, and the closing questations show a gain in a few stocks of 1 to 19½ per cent. The great speculative features of to-day were Union Pacific, Pacific Mail and Panama. Union Pacific declined to 71½ at the opening, afterward advanced to 72½, reacted to 72½, and finally closed at 72½, the highest point of the day. Pacific Mail advanced from 44½ to 45½, reacted to 45, with last sales at 45½ (6) 45½. Psnama opened at 130 against 128½ at the close on Saturday; from this point the stock advanced rapidly, with the next sale at 140, and the succeeding sales were 142 to 148. The occasion of the rise on the above mentioned shares was an announcement that the committee of the Pacific Mail and Panama, by mutual concessions, had virtually reached a point satisfactory to ail partice, and that a new contract would be officially ratified at an early day. The announcement from London that the steamer Occidental had passed through the Suezcanal caused a little flatter in the market, but this passed away when it became understood that this company is controlled by the directors of the Union and the Central Pacific roads. The speculation in Union Pacific also received a stimulus from telegrams from the west reporting a fall in the water, and that travel would be resumed very shortly; also an announcement that negotiations were in progress for a harmonious running arrangement with the Kansas Pacific had a favorable influence. Erle advanced from 30½ to 31½, closing at the latter figure. New Jersey Southern was more active, and rose 5½ 67. Lake Shore declined from 72½ 72½ closing at 73½ New York	Mercury.   Rivers.   Wind.
